scientific study of life. Studying biology is an opportunity to ask exciting questions about the world that surrounds us. It is an opportunity to dig into some of humanity's deepest questions about our own origins, the history of our planet, and our connections to other living beings (big and small/extant or extinct).

Goal: Biology in  
Context. Sitemap.

Goal: Biology in  
Context. An important  
goal this semester is to  
learn biology. This is  
far more than  
memorizing terms, and  
you will not be served  
by trying to learn each  
topic in isolation. You  
are being asked to  
build a mental model  
of how life works.
