For example the MTU series 2000 raw water pumps are notorious for causing damage that could have been prevented. The pumps are built with an external weep hole that lets you know if the water or oil seal is leaking. If the pump is leaking raw water and the problem is not addressed on time, the

## Access Free Mtu Engine Sea Water Pump

leaking raw water will corrode and seal the weep hole shut. The leaking raw water will not have an exit now and will start flowing through the oil seal leading to the interior of the engine.

### **Maintenance | Scarano Marine**

As shipboard engines, these run a dual-circuit cooling system that utilizes the

## Access Free Mtu Engine Sea Water Pump

water the ship is moving through to cool the engines; and because marine certification regulations stipulate that the surface temperature of the engine never exceed 220 degrees Centigrade, high-temperature components of the MTU Series 4000 engines are double-walled. MTU's 4000 Series engines offer big power in terms of volume-to-power
