Economic Outlook. After declining sharply for a year, economic growth stabilized in the middle of last year and then turned positive, growing at an annual rate of nearly 4 percent in the second half of 2009. The data released last Friday estimate that growth expanded at a respectable 3.2 percent annual rate in the first quarter.

2010, Middle East and ...

Economic Outlook. Now, let me turn to the national and regional economic outlook. As I suggested at the start of my remarks, I believe our nation's economic recovery continues on a sustainable path, with moderate growth and subdued inflation. All of us would like to see faster improvement in the job market. But the recession was very deep.
